

125mm Swivel Castors with an Anti Static Rubber Wheel and Brake

125-3360-ASR/SWB

This 125mm medium duty swivel top plate castors with a brake and an anti static black rubber wheel is suitable for spark free environments where it is important to have electrically conductive wheels, such as in Clean rooms. Anti static castors are electrically conductive and prevent the build up of static. The foot operated brake simultaneously brakes both the swivel head and the wheel.
